

## March 20 Lesson – Part 2

Watch <https://youtu.be/vLA33xT1LiU> and code along with me on your text editor. Tinker with the values in the program. Read the rest of chapter 12 in the text. Make sure you send me your questions.

I coded the program using glitch.com. If any of you are still having text editor problems, you can code along with me using glitch.com in lieu of the text editor. You don't have to be a member to use it (I'm not), but your programs will only be saved for 5 days.
