

## Homework Due April 22, 2022

Using <https://replit.com> code-along with me at <https://youtu.be/k5Ff7yEDB4c>

Using <https://replit.com> code-along with me at <https://youtu.be/wLEsAULLIc>

Read Chapter 14.

I coded my code-alongs using the IDE (Integrated Development Environment) at glitch.com. Just code away in the index.html file in your Repl. You'll have to click the run button to run new changes on your Repl. (Glitch.com continuously reruns changes automatically.)

Send me the links to your two Repls. If you create any Repls with cool modifications, send them to me. I'd love to see them!

HAPPY EASTER!!! JESUS HAS RISEN!!!
