

Homework Due Feb. 4, 2022

You have two weeks to complete this assignment.

Read all of chapter 8 and type in all of the blue example code into your console. Email me your solution to Programming Challenge 2 on pages 138-139. Make sure you read the two hints given before coding the challenge. If you read the book and type in the example code, you will be in good shape. Let me know if you need help.

I'll be posting examples from our last class to help you soon.
